Frequently Asked Questions

1

How does real-time editing work?

Multiple users work on the same document simultaneously with instant updates.

2

What security features are included?

Secure access, data encryption, and regular backups keep your data safe.

3

Can I integrate with other platforms?

Yes — seamless integration with various platforms, APIs, and device syncing.

4

How do I manage versions and track changes?

View version history, track changes, and recover previous versions as needed.

5

What are the document sharing options?

Customizable permissions, secure links, and options to restrict copying, downloading, or printing.
